MID-CENTURY MT. TABOR RANCH w/ STUNNING VIEWS! This home is ready to be sold to a homeowner who appreciates the work that has been done so far. Limitless potential in the partially finished basement and upstairs bedroom just begging to be turned into a master suite! As of now, this three-level mid-century ranch offers Marvin all-clad custom pine/fir sash windows on the main floor, Western Pacific doors, stainless steel kitchen with gas range, and modern all-tile bathroom. This home has a great flow inside and out, with updated architectural landscaping and organic garden. Currently offering a peek-a-boo view of Mt. Hood, the undeveloped back lot offers open sky enjoyment and provides the opportunity to add a dormer for a full view of Mt. Hood from the upper floor! Partially finished basement already has a bathroom, wall framing & electric and could easily be finished for custom appeal.
