The quintessential ski to/ski from mountain retreat is situated in the heart of the Colony on over five private acres. The ski access is a hop, skip, and a jump, to the 9990 and peak five lifts. The motif is refined mountain elegance boasting six stunning bedrooms, six fire places and all the proper amenities; including elevator, ski prep, work shop, two studies and the wine cellar. The main living area features the ever-popular open concept with cathedral ceiling and massive window walls allowing the outdoors in. In addition to the views, the 700 sq. ft. outdoor kitchen, fireplace and grill, is the place to be for mid-day snack before heading back out on the slopes. The most tasteful furnishings and an abundance of charm perfectly frame this refined, high alpine, turn key Park City sanctuary.
